It's a lot easier than you think!

You can often change trains in Shrewsbury, Wolverhampton or Birmingham International – where there are only a few platforms plus lifts and escalators at Wolverhampton and Birmingham

The train guards will let you know which platform to head to for your next train, or you can find out on the National Rail app

Changing trains is easier for everyone now – there are lifts at most main stations and you can even arrange for assistance if you need a hand getting on and off trains (call Assisted Travel on 033 300 50 501 24)
